

**WELCOME TO**

**THE SPECIALISTS**

**We are a young company. But we have plenty of long-term experience and competence. We are AGRO Tooling Systems.**

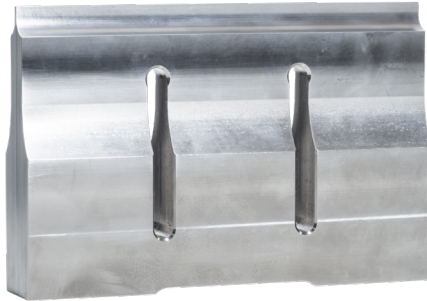

We produce the spare parts for AGRO, the international market leader for innersprings. And perhaps, in the future, for you, too?

 **AGRO**  
Tooling Systems

# The first name in spare parts for innerspring production machinery

## Examples from our range

State-of-the-art CNC machinery, highly qualified and experienced employees as well as the all important “plus” in customer service. All combined to form a highly appealing overall package for all common spare parts used in innerspring production machinery.

Sonotrode across  
L = 220/7

Knotting wheel

Giraffe

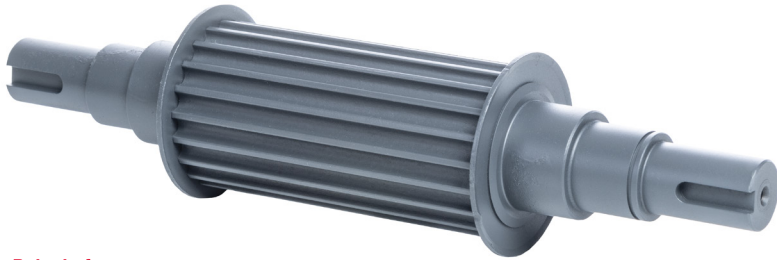

Prebender

Clutch

**MADE IN  
GERMANY**

**Belt shaft**

**Bridge**

**Bolt**

**Sonotrode flat**

**Feed roll**

## 3D scan

### **Our latest investment in the future**

You need a component, but don't have its drawing? No problem! Our portable 3D measuring device allows us to measure components precisely and display them in high resolution within a very short time. This patented technology is accurate up to 0.025 mm and certified according to ISO 17025.
